## PlugSurfing and Sodetrel Sign Interoperability Agreement

Sodetrel and PlugSurfing are combining forces to promote interoperability. The aim of the partnership is to make it much easier for electric car drivers to travel cross border and to promote electric mobility in general. Combining the networks from Sodetrel and PlugSurfing will give electric car drivers access to more than 27,000 charging points across France, Germany, Belgium, Luxemburg, Netherlands, Austria, Switzerland and Italy. The stations will be accessible to the Pass Sodetrel and with the PlugSurfing app and Charging Key.

"This agreement means more simplicity for the electric car driver", according to Sodetrel Managing Director Juliette Antoine Simon.

PlugSurfing Managing Director Adam Woolway is extremely pleased: "This is a giant breakthrough for electric mobility in Europe and shows that the new energy market will become a diverse ecosystem. We are delighted that electric car drivers will now have more freedom than ever".

### **About Sodetrel**

*SODETREL, a 100% subsidiary of EDF SA, is dedicated to the development of innovative solutions in the field of electric mobility. SODETREL positions itself as a provider of fully integrated charging services; from conception to installation, operation and maintenance of charging infrastructures for electric and hybrid vehicles. SODETREL operates several hundred charging points in real time and applies its proven expertise to propose intelligent, reliable and efficient charging systems. SODETREL also proposes a complete, 100% electric car sharing solution, integrating infrastructure, vehicles and a comprehensive operating system. Furthermore, SODETREL is one of the French market leaders in electric battery hire and maintenance facilities, used by electrically powered public transport networks and final mile delivery, urban area logistics.*

### **About Plugsurfing**

*PlugSurfing is Europe's leading app for EV driving and biggest community of electric vehicle drivers. Founded by Adam Woolway (UK) and Jacob van Zonneveld (NL), the young and international Berlin based company offers free apps to revolutionise payment for electric car charging. PlugSurfing's vision is to remove all barriers that currently exist to carbon-free mobility. PlugSurfing have been named the Global 'Energy' winners of the 1776 DC Start up competition 'Challenge Cup' in Washington DC and the German round of the Deutsche Telekom Innovation Contest.*
